Yes! When you combine the generous \$5,250 tuition assistance with other sources of education funding, the amount you may have to borrow to fund the remainder of your degree program can be very low.

Because Bellevue University is a nationally accredited university, they participate in all major federal and state grant and loan programs to pay any direct education costs remaining, such as tuition, books, and supplies.

Here are types of federal financial aid you may qualify for:

- **Pell Grants** – Awards of up to \$6,495 for the 2021-22 school year if you can demonstrate exceptional financial need. This is a grant program set aside by the federal government for individuals who meet financial aid guidelines. Because it is a grant, it does not need to be repaid.
- **Veterans Education Benefits** – Bellevue University welcomes Education benefits and has VA-approved experts who will work with you to access and use the education funding you're entitled to.

Please NOTE: In order to ensure that you have funding to cover your entire degree program, we make sure you have access to all available funding and we limit the amount of tuition assistance you can access each academic term.

What's the difference between a grant and a loan?

A grant does not have to be repaid. A loan must be repaid with interest following graduation or if the student stops before graduating.
